

Design Process for New Projects CAG Involvement

Presentation to Community Advisory Group

March 14, 2013

Adding New Elements to Improve the LBNL Building Design Process

Building & Landscape Architecture Standards

(common look and feel across campus)

Efficiency & Sustainability Standards set goals and stiget

(set goals and stick with them)

Early Community
Input Process
(identify and address
community concerns)

CD-0 Mission Need
Programming
Siting, Massing and Pre-concept
Architectural Design Review
Conceptual Design
CD-1 Selection of Alternatives
Schematic Design
CD-2 Baseline
Design Development
Construction Documents
CD-3 Ready for Construction
