

Fall 2011

Dr. Mina J. Bissell
Ernest Orlando Lawrence Berkeley National Lab

Dear Dr. Bissell,

On behalf of the International Breast Cancer and Nutrition group, we are pleased to present you with a Certificate commemorating your selection for the 2011 Susan Bulkeley Butler Leadership Excellence Award. This award recognizes an individual who has made strides in research or healthcare that is of importance to breast cancer prevention. We are honored to have you as our first recipient of this award.

This recognition is made possible thanks to a partnership with Susan Bulkeley Butler, a Purdue University alumna, and the founder of the Susan Bulkeley Butler Institute for the Development of Women Leaders. "The Institute was founded as a 'power center' for resources related to women and leadership, serving as a clearinghouse for research, training, coaching, and mentoring to develop leadership potential and helping women make bold changes to improve their lives."

Your scientific contributions make you well-deserving of this recognition.

Best regards,

Sophie A. Lelièvre, D.V.M., LL.M (Public Health), PhD
*Associate Director, Discovery Groups,
NCI designated Purdue Center for Cancer Research,
Purdue University*

Connie Weaver, PhD
*Distinguished Professor and Head,
Department of Foods & Nutrition,
