This document serves as your Permit to Operate the following:

**S1**  Permitted
Diesel Engine, Caterpillar model 3406, emergency standby
Diesel Internal Combustion Engine
Stationary, Emergency Standby
587 BHP Caterpillar 1999

Authorized emissions flows from this device:
S1 --> P2

**S2**  Permitted
Diesel Engine, Caterpillar model 3402, emergency standby
Diesel Internal Combustion Engine
Stationary, Emergency Standby
587 BHP Caterpillar 1999

Authorized emissions flows from this device:
S2 --> P1

The operating parameters described above are based on information supplied by the permit holder and may differ from the limits set forth in the attached conditions of this Permit To Operate. The limits of operation in the permit conditions are not to be exceeded. Exceeding these limits is considered a violation of BAAQMD and is subject to enforcement action.

**PERMIT CONDITIONS**

**END OF CONDITIONS**

**IMPLIED CONDITIONS**

Unless your specific permit conditions state otherwise, the throughputs, fuel and material consumptions, capacities and hours of operation described in your permit application will be considered maximum allowable limits.

A new permit will be required before any increase in parameters, such as throughputs, fuel and material consumption, capacities, and hours of operation, or change in materials, equipment or permit conditions may be made.
In accordance with Regulation 1-440, BAAQMD shall be granted the right of access to any premises on which an air pollution source is located for the purposes of:

a) The inspection of the source,
b) The sampling of materials used at the source,
c) The conduct of an emission source test, and
d) The inspection of any records required by BAAQMD rule or permit condition.

This Permit To Operate does not authorize violations of the rules and regulations of BAAQMD (may be viewed at www.baaqmd.gov), California or Federal law. Compliance with conditions in this permit does not mean that the permit holder is currently in compliance with BAAQMD Rules and Regulations. It is the responsibility of the permit holder to have knowledge of and be in compliance with all BAAQMD rules and regulations.
Reported Source Emissions
For Renewal Period 7/1/2018 to 7/1/2019

Prioritization Score: 0

Prioritization scores are calculated based on the quantity of toxic air contaminant emissions, the toxicity of the toxic air contaminants, and the proximity of the facility to potential receptors such as residences, hospitals, schools, and workers.
