

Meeting 11/28/07 SRC Subcommittee on Laser Safety

Present: Marc Hertlein (ALS), Larry McLouth (EHS), Paul Blodgett (EHS), Joel Ager (MSD), Eddie Ciprazo (UCB), Bob Schoenlein (MSD), Ken Barat (EH&S), Neil Landau (BSO)

Agenda:

- (1) discussion of committee representation
- (2) discussion of policy for alignment eyewear - Ken, Bob

Minutes

- (1) Presently, the committee has representatives from the following research divisions:
MSD, ALS, EETD, and PD

Additional representation is needed, particularly from CSD (given the large number of laser users) and possibly AFRD and LSD

Ken will contact the CSD Safety Coordinator about nominating someone from that division.

Bob will contact Don Lucas about getting additional representation from the research divisions that use lasers.

- (2) This is the second meeting at which the proposed policy on alignment eyewear was discussed. The policy was recommended by the committee to be forwarded to the SRC as a revision to CH16 of Pub 3000. Bob will forward this to Bill Wells and Don Lucas.

Note: after the meeting, we became aware of the official procedure for submitting revisions to Pub3000.

- revisions are to be submitted to the Responsible Chapter Author (Ken Barat for CH 16)
- Chapter Author submits revisions to EH&S Chapter Technical Reviewer
- EH&S PUB-3000 Manager analyzes effect of proposed changes on other PUB3000 chapters, coordinates institutional review, and presents revisions to the SRC.
