Chemical Management System Consumer Products

Consumer products **do not** need to be entered into the Chemical Management System (CMS) as long as their usage is consistent with the **consumer usage** intended by the manufacturer.

[29 CFR 1910.1200(b)(5)(v)]

If these products are used in excess of intended use (either amount, duration or frequency) , they may require hazard assessment and possibly inclusion in CMS.

For additional information contact the CMS Team at CMS@lbl.gov.
