

Stop Work - Process

All Berkeley Lab employees, contractors, and participating guests are responsible for stopping work activities that are considered to be an imminent danger. If you need to stop work do the following:

- Alert the affected employee(s) or contractor(s) engaged in the unsafe work creating an imminent-danger condition and request that the work be stopped.
- Call 6999 to report the incident (EHS will investigate)
- Notify the supervisor and division/department management (if known)

Work shall not be resumed until the safety issue has been resolved to the satisfaction of the person who stopped the work.

For more information, contact Jack Salazar, x6571
