Deputy Director for Operations

# August 2 emergency incidents

## Security incident coupled with wildland fire on Grizzly Peak

# Lessons learned being used to help us improve

## Security Incident

- Multi-Agency Coordination and Communications
- Validation of information (fewer assumptions)
- Protective Force coordination
- Lockdown implementation and effectiveness
- Lockdown communications
- Personal safety first – call 6-999

## Wildland Fire

- Improve communications – to staff, visitors, between EOC/SOC/field. More detail, faster, more accurate both during and after event
- Effective PA system
- Comprehensive evacuation plan and better traffic control
- Improved coordination with the UCB
