# LBNL Project Overview

# Site Construction Coordinator Program

- LBNL established the Site Construction Coordinator program November 2008
- Scope is to manage and minimize impacts of construction traffic and parking
- Tools include:
  - ✓ Weekly meetings with all project teams
  - ✓ Updating the Truck Trip Forecast
  - ✓ Monitoring actual truck trip counts
  - ✓ Halting/Rescheduling trucks that would exceed limits
  - ✓ Managing truck trip plans between projects team
  - ✓ Approve contractor lay-down areas & parking
  - ✓ Pilot car program
