

EHS 0203 CCO Overhead Crane Certification Course Syllabus

Subject Category: FAC Riggers

Co-requisite: EHS 0206 > 2 ton cranes

Course Length: Exam

Course Mode: CCO Approved Trainer

Medical Approval: Yes

Refresher: 5 years

Audience: FAC Riggers and those who operate overhead cranes at LBNL.

Purpose: This is for overhead crane operators and is for either cab-operated or pendant/Remote Control operated overhead cranes.

Details

Candidates must pass both written and practical exams to become CCO-certified overhead crane operators (OVR). The overhead crane practical exam can be taken on either a cab-operated crane or a pendant/remote control-operated crane and tests skills including trolley travel, hoisting, bridge travel, and combined-function operations.
