

ERNEST ORLANDO LAWRENCE BERKELEY NATIONAL LABORATORY

Environment, Health, & Safety _ Training Program

EHS 279 ~ Scaffold Safety

Course Syllabus

Subject Category:	Occupational Safety	Course Prerequisite:	No
Course Length:	30 minutes	Medical Approval:	No
Delivery Mode:	e-learning		
Schedule:	e-learning		

Course Purpose: This course is designed to provide information on the safe use of scaffolds as elevated work platforms.

Course Objectives:

After completing this course, participants should be able to:

- Recognize the hazards associated with scaffold use, and actions to mitigate those hazards
- Decide whether or not a scaffold is safe to use, based upon an analysis of relevant safety factors, including:
 - Tag color
 - Locked or unlocked wheels
 - Fully or partially planked
 - Total rated carrying capacity
 - Weather conditions

Course Instructional Materials: e-learning

Instructor: e-learning

Training Compliance Requirements: LBNL PUB 3000, Chapter 35

Participant Evaluation: Successful completion of 10 scaffold scenario challenges at the end of the course.

Written Exam: No

Practical Exam: No

Retraining/Recertification: No

WEB Resource: PUB-3000
