EHS 325 Asbestos Contractor/Supervisor Annual Refresher

Course Syllabus

Subject Category:	Occupational Health	Course Prerequisite:	Yes
Course Length:	1 Day	Medical Approval:	No
Delivery Mode:	class		
Location/Time:	Offsite Vendor		

Course Purpose: This AHERA approved course provides students review of abatement techniques, air sampling, respiratory protection issues, containment construction, filtration systems, etc.

Audience: This course is intended for personnel involved with the oversight and supervision of the removal, encapsulation, enclosure, and repair of asbestos-containing materials for Class I and II operations, such as work involving the disturbance of asbestos containing materials, including surfacing materials, thermal system insulation, and miscellaneous materials, in quantities larger than can be contained within a single waste or glove bag less than 60 inches in width. This course satisfies the training requirements of Cal-OSHA's Class I and II Competent Person training for asbestos.

Course Objectives: Review issues related to supervising asbestos abatement projects and how to set them up properly

Course Instructional Materials:

- Vendor training

Instructors: [Offered by vendors in the Bay Area and Vacaville.](#)

Training Compliance Requirements: 29 CFR 1926.1101 & CCR Title 8 1529

Course Handouts: Student manual with copies of regulations, abatement literature and latest technology.

Participant Evaluation: N/A

Written Exam: No

Practical Exam: No

Retraining/Recertification: A refresher class is required every year to maintain this training
