FAC 0076 Penetration Permit Overview

Course Syllabus

Subject Category: Penetration Permit program

Course Prerequisite:

Course Length: 1-hour

Medical Approval: None

Course Mode: Small group training

Course Purpose: The purpose of this overview course is to help ensure that LBNL employees are able to recognize when a penetration permit is needed, know why it is needed and to understand the steps and the process to obtain a penetration permit.

Learning Objectives:

After completing this training, participants will be able to

- Explain when a Penetration Permit is needed
- Recall who may apply for a Penetration Permit
- Indicate what information needs to be provided within the Penetration Permit Application
- Explain how long a typical Penetration Permit takes from time of application to time of issuance

Training Requirements: FAC Penetration permit program (internal requirement)

Instructor: Penetration Permit Program manager

Course Instructional Materials: in-person training

Practical or performance Assessment / Exam: No

Retraining/Recertification: No

Course Evaluation: Feedback form used to evaluate training
